About

Artist Intro

She is renowned for unlocking your personal “art dreams” and bringing them to life.

“Creating art is the alchemy that translates your heart into form.”

Corlene Furstenburg is a South African born artist who combines her unique, artistic talents to work across several mediums. She will capture your imagination and heart through her large scale metal, perspex and wood installations, modern limited edition prints, interactive walls of art, all the way through to bespoke commissions and sculpture gardens.

Corlene intuitively translates your creative passion into bespoke pieces for your home, office or garden. She combines ancient symbols and modern patterns, the power of mythology and magical creatures through her visual storytelling. Her work is sought after internationally and private commissions can be found on estates and offices across the USA, France, Mauritius and South Africa.

She simply loves the possibility and alchemy of metal - bending and cutting copper, steel and brass fascinates her. She conjures up and sculpts extraordinary metal installations to create Interactive Art. The observer can immerse in the art experience through touching, moving and transforming the piece in front of their eyes to remind you of the ‘Magic of Possibility.’

With a formal degree in Fine Arts and Entertainment Technology, Corlene shone in the creation of theatre props and décor painting. This means that no canvas or backdrop is ever too large for this bold artist. As a well-schooled Reproduction Artist able to adjust her artistic style from the most classical to the ultra-modern, she initially created reproductions of a variety of the Great Masters for the stage and big screen. Corlene has a waiting list for clients wanting to own a piece of original art or a masterful reproduction. Her take on Gustav Klimt, Gabriel Rossetti and James Draper is her client’s favourite.

She collaborates closely with top Interior Designers to complement their masterful designs. Corlene is gifted at transforming spaces into relevant and exciting environments and she will add the perfect piece to the interior to pull the final look together with finesse. Designers know that nothing speaks style more than an immaculately hung bespoke piece of art! This specialized skill has also put her at the forefront of Artistic Office Installations, translating brand and culture onto the walls through art.

Colene has been invited to exhibit at the Julie Miller African Contemporary Gallery, ART IT IS and Yuill Demaso Studio in Johannesburg, South Africa. She adjudicates the annual International Reddam House School ‘Concourse D’arts competition and lectured “Costume Design for TV and Film” at AFDA.

I have a passion for painting and to create the extraordinary on canvas .

No canvas ever too big or too small. My original art and reproductions can be found across the USA, France, Mauritius and South Africa.

“I am renowned for unlocking your personal art dreams and bringing them to life.”

I live for the challenge, to emulate great masters and to understand different art styles and techniques that were used in different eras in history. My reproductions of the work of Gustav Klimt, the Pre Raphaelite Gabriel Rossetti and James Draper are among the most commissioned.
